

Specification AD 7934

Lures with UV light, electrocute insects with high voltage, stores dead insects for disposal

Safe for humans and animals - works without the use of chemicals, without releasing harmful substances

Applied grilles additionally increase childrens safety

Effective protection against: mosquitoes, flies, wasps and moths

High voltage glaring insects 2500V

Electronic transformer and magnetic ballast

365nm UV light for attracting insects

Solid construction made of electrophoretic aluminum alloy and high quality ABS plastic

Durable housing with protected edges

Operating position: free-standing or hanging

Application: inside

Area of operation: up to 150 m2

UV lamp lifetime of 8.000 hours

Type of fluorescent lamp: 8W T5 BL (replaceable), 2 pieces

Suspension chain included

Insect container: retractable tray, easy to clean

On / off switch

Dimensions: 35.0 x 10.2 x 28.0 cm

Quiet operation 46-54 dB

Device power: 23,7 W

Voltage: 220-240V ~ 50 / 60Hz

Plug type: E/F
