**Specification** MS 1236  
Efficient and energy-saving mini kettle, rated at 760W. It allows to boil water quickly in order to make tea or coffee for two people. Small size and low power consumption make the kettle a good choice for both travellers and people who want to save their money. The mini kettle is very convenient thanks to a stable base, big and bright water level indicator and a pilot light. Allows to boil even 200 ml of water. After boiling the water the kettle switches off automatically and protects the users safety. MS1236 Mini kettle has an embedded anti-calc filter which stops calcium sediments what improves taste and quality of boiled water.  
Max. capacity 0.6L, min. 0.2L  
Power 760W  
Big, bright water level gauge  
Filter  
Automatic switch off  
Boil-dry protection  
Compact baseplate with cord storage
