Specification AD 4515

Food vacuum air extracting set
Using the device and the attached accessories, you will pack food by sucking out the air to keep the freshness for longer.

The vacuum air extractor will automatically turn off after the air has been completely sucked out of the bag, or bottle.

The device can be powered by an AC adapter or batteries.

Battery-powered allows the device to be used while camping and traveling.

Reusable, environmentally friendly vacuum bags

The vacuum stopper fits most standard glass bottles, regardless of the type of drink - from wine to juices and other drinks.
