Audio | Home | Outdoor | Kitchen | Health | Bathroom | Beauty

Specification AD 8087

40L capacity
Cooling system: Peltier cell
HEAT - COOL switch
Power supply selection switch: DC12V-OFF-AC230V
Special cyclopentane insulation (C5H10)
Insulation thickness in walls: 25–30 mm
Constant temperature in the cooling chamber: 18–22°C lower or higher than the ambient temperature
Convenient, hinged lid
casters for easy transport
convenient handle
Attractive design
Includes cables for connecting the cooler to a 12V DC car cigarette lighter socket and a 230V AC outlet
Power supply: AC 220–240V ~50/60Hz; Heating power: 52W / Cooling power: 58W; Cable length: 125 cm
Power supply: 12V DC; Heating power: 40W / Cooling power: 48W; Cable length: 158 cm
Dimensions:
Internal: 45 × 30.4 × 30 cm
External: 56.1 × 39.1 × 41.6 cm
Energy consumption at an outdoor temperature of 16 degrees Celsius (E16), in kWh/24h: 0.002
Energy consumption at an outdoor temperature of 32 degrees Celsius (E32), in kWh/24h: 0.425
Performance:
• For optimal cooling performance, place pre-chilled food in the refrigerator. It takes 2–3 hours to chill items that have not been pre-chilled.
• The warming function allows you to maintain the temperature of preheated items for a longer period (the refrigerator is not intended for heating cold items).
• Proper use of the appliance ensures that food remains at the correct temperature for several hours.
Plug type: Car plug. Power adapter: C
