Specification CR 6880 black
This is a roomy, durable, comfortable to carry and multifunctional backpack thanks to its clever design and multiple pocket layout.
Capacity:
- Travel backpack with a capacity of 24 liters
- The dimension of 40*20*30cm is suitable for free carriage on low-cost airline flights
- Internal dimension: 39.5 x 25.5 x 11.0cm
Reliable construction with high quality durable tested raw materials:
- Outer fabric is waterproof, tear-resistant with a tugging load of up to 71kg
- Nylon threads used for sewing the structural elements of the backpack, which can only withstand tearing at a force of more than 400 Newton, i.e. a load of more than 40kg
- Zippers of the renowned YKK brand known for their reliability were used
Comfortable to wear:
- The sternum strap allows you to stabilize the position of the backpack to evenly distribute the load between the left and right shoulders
- Foam-padded wide shoulder straps with adjustable length optimize the backpack's fit to the user's body
- The backpack has all the transverse strap to put it through the pull-out handle of a wheeled suitcase, such attachment of the backpack is especially helpful when moving at airports and escalators
- The backpack has two buckles on each side for attaching a rolled coat, blanket, carrimata, creslar tube for projects
- The backpack has a sponge-padded and mesh-lined soft handle for vertical carrying
Multi-functional use:
- For daily use as a document organizer
- As a laptop case for business, students,
- As a handy sports bag with a compartment for wet clothes and a special compartment for shoes
- As a trekking backpack for the trail

Backpack equipped with 11 different pockets
5 exterior pockets:
- Top one on the front of the backpack for storing e.g. tickets, IDs, zippered
- Lower one on the front of the backpack with RFID protection to store sensitive data media before scanning, zippered
- Side bottle pocket with sewn-in rubber band to adjust to different bottle diameters
- So called anti-theft back pocket located on the back side, accessible after removing it
- Zippered bottom pocket with two vents for storing sports shoes, pool flip-flops, change shoes for business trips

3 main compartments with 9 interior pockets
- The front compartment is waterproof, made of PEVA plastic with no interior pockets. The compartment is dedicated to carrying wet towels and damp or soiled sports clothes after training at the pool or playing sports outdoors, it tightly separates its contents from the contents of the other chambers of the backpack.
- The middle compartment is multifunctional:
o It can act as a suitcase for clothes, and has a zipper accessible from 3 sides, which, when pulled apart, allows the backpack to lay completely flat, making it easy to put clothes in for a short trip
o It can be filled with shoes inserted from the bottom into a waterproof pocket and topped off "from the top" with other essentials
o When the zipper is zipped "halfway" and the side pockets are closed, the middle compartment will work great as a "mobile office," with room for documents. The middle pocket will fit an A4-size binder with a spine thickness of up to 10 cm. The layout of the interior pockets is as follows: 1 pocket for a writing instrument, with 1 pocket for a phone-type device, 1 mesh zippered pocket for small documents or a wallet, 1 pocket for stabilizing documents such as an A4 calendar/notepad. On the other side of the compartment is a flat zippered pocket for documents up to A5 format or other flat small items. In addition, in order to facilitate customs clearance at the airport, the middle compartment has been equipped with a detachable cosmetic bag with dimensions that comply with the limit of 10x100ml of liquids allowed for carry-on luggage. In addition, there is a USB Type A port for connecting your powerbank and two Type C and Type A outputs for charging two devices simultaneously

- The rear compartment is a compartment for a laptop up to 17 inches, the walls of the compartment are padded with thick foam.
