**Specification** CR 6881 dark grey

This is a roomy, durable, comfortable to carry and multifunctional backpack thanks to its clever design and multiple pocket layout.

Capacity:

- Travel backpack with a capacity of 24 liters
- The dimension of 40*20*30cm is suitable for free carry on low-cost airline flights

- Backpack width without expansion: 11.0cm

- Backpack width after expansion: 19.0cm

Reliable construction due to high quality durable tested raw materials:

- Outer fabric is waterproof, tear-resistant with a jerking load of up to 71kg
- Nylon threads, which can only withstand tearing at a force of more than 400 Newton, i.e. a load of more than 40kg, are used to sew the structural components of the backpack

- Zippers of the renowned YKK brand known for their reliability were used

Comfortable to wear:

- The sternum strap allows you to stabilize the position of the backpack to evenly distribute the load between the left and right shoulders

- Foam-padded wide shoulder straps with adjustable length optimize the backpack's fit to the user's body

- The backpack has a sewn-in cross-body strap to put it through the pull-out handle of a wheeled suitcase, such a backpack attachment is especially helpful when moving through airports and escalators

- The backpack has two clickable buckles on each side for attaching a rolled coat, blanket, carrimata, drafting tube for projects

- The backpack has sponge-padded and mesh-lined soft handles for carrying vertically like a regular backpack or horizontally like a suitcase

Multi-functional use:

- For daily use as a document organizer, handy bag

- As a laptop case for business, students,

- As a mini suitcase for 1-2 day business trips with removable makeup bag

- As a trekking backpack for the trail

Backpack equipped with 13 different pockets

4 exterior zippered pockets:

- Top one on the front of the backpack for storing e.g. tickets, IDs

- Lower one on the front of the backpack with RFID protection to store sensitive data media before scanning

- Vertical one on the front of the backpack to hold a notebook up to A4 size or a map

- Back pocket so called anti-theft pocket located on the back side, accessible after removing it

3 main compartments with 9 internal pockets

- The front compartment is perfect as a "mobile office", with space for documents, with 2 pockets for writing instruments, with 2 pockets for small documents such as car registration or phone, and 1 mesh pocket to stabilize smaller fomrates such as a calendar. In addition, in order to facilitate customs clearance at the airport, the front pocket has been equipped with a detachable cosmetic bag with dimensions complying with the limit of 10x100ml of liquids allowed to be carried in hand luggage. In addition, there is a USB Type A port for connecting your powerbank and two Type C and Type A outlets for charging two devices simultaneously. This compartment also features a removable key lanyard.

- The middle compartment can be used as a suitcase for clothes, it has a zipper accessible from 3 sides, the opening of which allows the backpack to lay completely flat, making it easy to put clothes in, and finally, clothes will be protected from shifting thanks to the zipper of the mesh compartment. The middle compartment can change its depth from 4.5 to 8 cm thanks to its expandable design with an external zipper. In addition, the middle compartment is equipped with a flat waterproof "wet/dry" pocket dedicated to storing documents and protecting them from moisture such as a wet towel. Of course, the middle compartment, after zipping "halfway" and closing the side several buckles, is a traditional space for carrying things other than clothes.

- The back compartment is equipped with 2 internal pockets, the first is a compartment for a laptop up to 15.6 inches, and the second flat without a zipper will accommodate an A4 notebook. The compartment itself will accommodate documents / document folders about 4cm thick.

Backpack weight: 1.14kg
